AMALITECH

Project Title: A huddle landing page with curved sections

Project Objective

Your challenge is to build out this landing page and get it looking as close to the design as possible.

Customer Requirements

Your users should be able to:
1. View the optimal layout for the site depending on their device's screen size
2. See hover states for all interactive elements on the page

Acceptance Criteria

Deliverables

- Web application source code (GitHub - implement Git flow with a reasonable number of commits including a well-written README file)
- CSS - Use styled-components
- Deployed link

Evaluation Criteria

- To which degree does the application really fulfil the customer needs?
- How did the candidate utilize git-flow processes (feature branches etc. pull requests)?
- How well did the design appeal to the user, colour combination, consistency, usability?
- How well did the candidate present his/her results?
